

Young Visitors & Participants

Have you had a meaningful experience from a visit, program or experience at the EcoTarium?

We need your help!

Would you share their experience with us in a self-made video clip? Your videos will be featured during our signature fundraiser A Night Near the Museum on September 26 as a way to highlight the impact of the EcoTarium's curriculum and experiences that are accessible for young visitors and encourage continued support.

Yes? Here's What to Do:

1. Review the questions below
2. Answer 1-3 of the questions on a video (via phone is just fine)
3. Email the completed video files to: jisperduli@ecotarium.org by September 3
3. Questions or concerns: contact rstoff@ecotarium.org

Questions for general students/kids:

- Why do you like coming to the EcoTarium?
- Do you have a favorite thing about nature or science that you like to learn about?
- (If it doesn't feel redundant...) What is your favorite thing about the EcoTarium?
- How do you feel after spending a day at the EcoTarium?
- Finish this sentence: "To me, the EcoTarium is _____" and fill in the blank with anything. You can get creative! For example, "To me, the EcoTarium is science" or "The EcoTarium is fun" "...animals" "...exploration", "...an adventure", etc.

Questions for more in-depth students and/or program alum:

- Was coming to the EcoTarium a significant part of your childhood?
- What are some of your strongest memories around coming to the EcoTarium?
- What skills do you think you developed during your time spent at the EcoTarium?
- Do you think having experiences at the EcoTarium affected your educational path later in life?
- Are you proud that the Worcester area has a resource like the EcoTarium?
- Can you say this sentence and fill in the blank: "To me, the EcoTarium is _____" This one is for fun, so it can really be anything! "learning, community, inspiration, adventure, etc."
