

Chilly Haiku Challenge

A haiku is a poetic form that originated in Japan. These poems are usually written about nature, and offer a short observation or meditation.

Each haiku consists of three lines; the first has **5** syllables, the second line has **7** syllables, and the third line has **5** syllables.

Write a winter haiku (**or three!**), and share with the hashtag #WildAboutWinter.

Here's an example of one we composed:

**It falls from the sky
Beautiful and delicate
Let's make a snowman!**
