

Blast Off! Birthday Party

What is more exciting than exploring the planets and stars in a rocket ship, even if it's only in our imaginations? At this EcoTarium birthday party, the fun starts with making your own stomp rocket! When finished, it's time for the final countdown and blast-off! How high can you make your rocket fly? Launching is held indoors or outdoors, depending on the weather. Everyone gets to take their rocket home, along with instructions on how to make more to continue the fun! And what's a party without games? You and your fellow astronauts will need to be prepared to have your space and physical skills tested with a round of space trivia or space twister!
